Metaphorical thinking is also an excellent, creative way to approach problems: linking unrelated elements opens up the creative part of the brain, the side that is stimulated by images and conceptual thinking. Moreover, by linking complex problems with more familiar phenomena, you can spark a greater appreciation of complex problems so that people are no longer constrained by the images they retain of the current problem or by their fixed ideas about possible solutions. Metaphors are ...

Creative problem solving (CPS) is a way of using your creativity to develop new ideas and solutions to problems. The process is based on separating divergent and convergent thinking styles, so that you can focus your mind on creating at the first stage, and then evaluating at the second stage.

### **Creative Problem Solving - Creativity Tools From MindTools.com**

Creative problem solving is a technique to approach a problem or address a challenge in an imaginative way. Most of the time, we block our minds from thinking differently and find it easy to follow a certain norm so as to find quick, easy-fix solutions.

### **Creative Problem Solving: Out-of-the-box Solutions to ...**

A creative problem solver has the ability to envision several outcomes, make assumptions as to what needs to be done to achieve an outcome & is willing to take risks because they have confidence in their own judgment. Creative thinkers start from scratch and are not limited by steps or processes; instead they create unique paths and new solutions. The limitation of creative problem solving is often that there is no limit to the creative process. If a problem has a deadline or budget ...
