

Just Along For The Ride by Dennis Kurumada

ANALYSIS

The first- person narrator from the short story „Just along for the ride“ by Dennis Kurumada, published in 1972, is a really desperate man, who does not know what to do in a serious and complicated situation. On one hand, he wants to say the truth and on the other, he does not want to betray his friends.

Fairly early in the short story, there is shown the desperating first-person's inner- conflict. First, he is a really sincere person, because he wants to go to Ken Benjamin's mother to tell her the truth about her son's accident (cf. p.2, l.35ff).

However, the narrator is also a very selfish person. He is afraid of the consequences of his actions and he is not willing to risk his own life for the sake of the truth. This is why he decides to stay silent and to let the accident go.

In the end of the story, the narrator is still in a state of inner conflict. He is torn between his conscience and his fear. He knows that he has done the wrong thing, but he is too afraid to admit it.

The story is a powerful example of the human condition. It shows how a person can be torn apart by their own desires and fears. It is a story that everyone can relate to.
