### The Digital Revolution and the Coming of the Postmodern ...

The Digital Revolution and the Coming of the Postmodern University shows how the internet, high-speed electronic communications and personal computers necessitate a radical rethinking of what is meant by 'higher education'. The book calls into question both the traditionalist's scepticism about the benefits of new technology, and the corporate e-learning advocate's failure to grasp that education is more than what happens on a computer screen. The author provides concrete data and models for ...

### The Digital Revolution and the Coming of the Postmodern ...

The postmodern university, which we have called the hyperuniversity, is at the same time a global university. In the past two decades or more social and economic visionaries have encouraged us to 'think globally'. The globalization of the market economy, which accelerated with the collapse of the Berlin Wall in 1989 and the fall of the Soviet Union in 1991, is now a fait accompli, even though the trend has provoked

cries and alarms in different political quarters, even in the Western world ...
