Disruption Management - World Scientific

A disruption started by a new technology affects the value generation model of a firm that is then able to offer new products. The new product might pass the industry layer without any immediate disruptive effect on the industry architecture. However, if the product creates significant demand among consumers, technology push may turn into market pull and the disruption can diffuse back to the ...

Disruption Management: Framework, Models, And Applications ...

Was there something about good management, paradigms of good management, that we teach here at business schools like the Indian School of Business, that lead companies into this sort of trouble. And the outcome of that thought was the disruptive innovation framework. I'm going to present to you the four catalysts to disruption of an industry. First, observe that every product of every company ...
